

## Presentation

- Attention getting device
  - “What are your salary expectations, now?”
- Introduction:
  - Selected topic
  - Team
- Objective
- Reasons why we selected this topic
- Technologies used
  - **Pandas** (*Pandas will be used to clean the data and perform an exploratory analysis. Further analysis will be completed using other native Python tools.*)
  - **Postgres**
  - **Amazon AWS** (*Postgres will be used as a database via Amazon AWS for its reliability in data integrity and visualization tools.*)
  - **SciKitLearn** (*SciKitLearn will be the ML library we will be using for classification, regression, and clustering.*)
  - **Tableau** (*As an interactive dashboard, we intend to use Tableau to visualize our results.*)

\*\*\* The script has been created for my personal use only. \*\*\*

\*\*\* These notes are for your reference as to what I will be talking about during the presentation of my part of the project. \*\*\*
